Our Commitment

Supplier diversity is integral to how we do business and improve the economic health of our communities. Guided by our core values, our comprehensive supplier diversity program enables us to procure products and services from businesses in HUBZones, small businesses, and those that are majority owned by:

- People of color
- Women
- Veterans
- People with disabilities
- People who identify as LGBTQ+

Our Program

Our supplier diversity program, part of our environmental, social, and governance efforts, establishes a supply chain that better reflects the diverse people and communities we serve. We work with business partners across Elevance Health to ensure that diverse suppliers are included in sourcing opportunities. Additionally, through community partnerships like that with the Indy Chamber, we identify, nurture, and expand our supplier base.
